

Appln No. 09/747,392

Amdt date May 11, 2004

Reply to Office action of February 10, 2004

REMARKS/ARGUMENTS

Claims 1-7 are currently pending in this application. Claims 1 and 2 have been amended. Claims 4-7 have been allowed. In view of the above amendments and remarks that follow, Applicant respectfully requests reconsideration, reexamination, and an early indication of allowance of claims 1-7.

Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Silberfenig (U.S. Patent No. 6,243,594) in view of Kermani (U.S. Patent No. 6,526,128). Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Silberfenig in view of Kermani and further in view of Fox (U.S. Patent No. 6,064,792). Applicant respectfully traverses this rejection.

Claims 1 and 2 have been amended so that they now recite the following limitation: "the uplink signal carrying a first speech frame transmitted by the mobile set to a second device during a voice conversation, and the downlink signal carrying a second speech frame received by the mobile set from the second device during the voice conversation." Claim 1 further recites "a memory element storing the selected speech frames into a speech file." Claim 2 similarly recites "recording the speech containing time frames from said uplink and said downlink signals" Applicant submits that neither Silberfenig, Kermani, nor Fox, teach or suggest these limitations. Accordingly, Applicant submits that amended claims 1 and 2 are now in condition for allowance.

Claim 3 depends on amended claim 2. As such, Applicant submits that claim 3 is also in condition for allowance based upon amended claim 2, and for the additional limitations contained therein.

In view of the above amendments and remarks, Applicant respectfully requests an early indication of allowance of claims 1-7.

Respectfully submitted,

CHRISTIE, PARKER & HALE, LLP
